

# Genworth 2014 Cost of Care Survey

Home Care Providers, Adult Day Health Care Facilities,  
Assisted Living Facilities and Nursing Homes

## Build a Better Plan with the Genworth 2014 Cost of Care Survey

Genworth has been providing insights on the importance of planning for long term care since 2004 with its annual Cost of Care Survey. The Cost of Care data has helped Americans plan for the potential need for long term care in their preferred location and setting. Genworth's 2014 Cost of Care Survey, conducted by CareScout®, is the most comprehensive survey of its kind and covers over 14,800 long term care providers in 440 regions nationwide. This unique level of detail can help you plan for long term care costs in your desired location and care setting.

For nearly 40 years, Genworth has been a leading provider of long term care insurance.\* We are also proud to be considered a thought leader when educating and empowering American families, financial professionals, policymakers and others about the importance of having a long term care plan.

Long term care is something many people may need as they age. The Genworth 2014 Cost of Care Survey can help individuals identify the financial impact a long term care event may have. This survey will provide you with current costs and potential future growth rates. Effective planning can help manage this impact. A long term care strategy can help families and individuals formalize their wants, needs and goals.

We hope you find this data insightful and valuable when starting your plan. You can also access the data online at [genworth.com/costofcare](http://genworth.com/costofcare) or by downloading the free app for iPhone® and iPad® from the App Store on iTunes.

\* Long term care insurance is underwritten by Genworth Life Insurance Company and in New York by Genworth Life Insurance Company of New York. Administrative Office: Richmond, VA.

# Summary of 2014 Findings

Over the past 11 years, Genworth has been able to recognize and identify trends across the long term care services landscape. Overall, while the cost of care among all care providers has steadily increased, the cost of facility-based providers has grown at a much greater rate than that for home care. As the American population ages and requires these services, it is vital to be aware of the associated costs in order to build a better long term care plan. Consumers have more choices than ever before.

Long term care can be provided in a variety of settings. A licensed health care practitioner such as a physician, registered nurse or social worker will determine a plan of care that could include the following:

<b>HOME</b>	<p><b>Homemaker Services</b> This service makes it possible for people to live in their own homes, or to return to their homes, by helping complete household tasks that they cannot manage alone. Homemaker services provide “hands-off” care such as cooking, cleaning or running errands.</p>	<p>NATIONAL MEDIAN HOURLY RATE</p> <p><b>\$19</b></p>	<p>INCREASE OVER 2013</p> <p><b>4.11%</b></p>	<p>FIVE-YEAR ANNUAL GROWTH<sup>1</sup></p> <p><b>1.20%</b></p>
	<p><b>Home Health Aide Services</b> Personal and home health aides help those who live in their own homes instead of residential care facilities or nursing homes. Home health aides may offer services to people who need more extensive care than their family or friends are able – or have the time or resources – to provide. It is “hands-on” personal care, but not medical care. This is the rate charged by a non-Medicare certified, licensed agency.</p>	<p>NATIONAL MEDIAN HOURLY RATE</p> <p><b>\$20</b></p>	<p>INCREASE OVER 2013</p> <p><b>1.59%</b></p>	<p>FIVE-YEAR ANNUAL GROWTH<sup>1</sup></p> <p><b>1.32%</b></p>
	<p><b>Adult Day Health Care (ADC)</b> This service provides social and related support services in a community-based, protective setting during any part of the day, but less than 24-hour care. ADC centers can offer a much-needed break to caregivers. There are a variety of models that intend to offer socialization, supervision and structured activities designed for individual needs. Some programs also provide personal care, transportation, medication management, social services, meals, personal assistance and therapeutic activities.</p>	<p>NATIONAL MEDIAN DAILY RATE</p> <p><b>\$65</b></p>	<p>INCREASE OVER 2013</p> <p><b>0%</b></p>	<p>FIVE-YEAR ANNUAL GROWTH<sup>1</sup></p> <p><b>3.40%</b></p>

FACILITY

**Assisted Living Facility (ALF)** These facilities are living arrangements that provide personal care and health services for people who may need assistance with Activities of Daily Living (ADLs). The level of care provided is not as extensive as that which may be provided in a nursing home. Assisted living is not an alternative to a nursing home, but an intermediate level of long term care.

NATIONAL MEDIAN MONTHLY RATE	INCREASE OVER 2013	FIVE-YEAR ANNUAL GROWTH <sup>1</sup>
<b>\$3,500</b>	<b>1.45%</b>	<b>4.29%</b>

**Nursing Home Care** These facilities provide a higher level of supervision and care than Assisted Living Facilities. They offer residents personal care assistance, room and board, supervision, medication, therapies and rehabilitation, and skilled nursing care 24 hours a day.

**Semi-Private Room**

NATIONAL MEDIAN DAILY RATE	INCREASE OVER 2013	FIVE-YEAR ANNUAL GROWTH <sup>1</sup>
<b>\$212</b>	<b>2.62%</b>	<b>3.91%</b>

**Private Room**

NATIONAL MEDIAN DAILY RATE	INCREASE OVER 2013	FIVE-YEAR ANNUAL GROWTH <sup>1</sup>
<b>\$240</b>	<b>4.35%</b>	<b>4.19%</b>

<sup>1</sup> Percentage increase represents the compound annual growth rate for surveys conducted from 2009 to 2014.

# How To Pay for Long Term Care

With median costs increasing year after year, it is important to investigate the various methods of paying for long term care. The costs can add up quickly, so knowing the different options is vital.

People generally think of four basic ways to pay for long term care: out-of-pocket, private long term care insurance, Medicare or Medicaid.

## Self-Insure (Out-of-Pocket Payment)

As you page through this report, you can look up the costs of various types of care in your state – private and semi-private nursing homes, assisted living facilities, home health aides and homemaker services. These costs can give you a good idea of how much money you or your family will need if you or a loved one requires long term care.

## Long Term Care Insurance

Long term care insurance helps pay for your care and protect your assets by paying for covered expenses up to the amounts set forth in your policy. Depending upon the type of policy you choose and your plan of care, this insurance can pay for a wide variety of home, community-based and facility care services, and can offer care options that may not be covered through government programs.

Many states participate in the Long Term Care Insurance Partnership Program. Designed to encourage planning for long term care, the Partnership Program allows individuals to retain more assets than would otherwise be allowed under state Medicaid eligibility requirements. As a result, policyholders are able to retain assets they would otherwise have to spend down prior to qualifying for Medicaid benefits.

Generally, individuals can participate in their state's Partnership Program by owning a long term care insurance policy that meets the requirements for the Partnership Program. Policies qualifying under the Partnership Program generally do not cost more than non-qualified policies with similar benefits.

## Medicare

Generally, Medicare is the federal program that provides hospital and medical insurance to people age 65 or older and to certain ill or disabled persons. Benefits may be available for home health care, but only if certain conditions are met.

Medicare may pay for up to 100 days of care in a skilled nursing facility per benefit period – 100 percent for the first 20 days (after a three-day hospital stay, provided skilled care is needed). Then, for days 21-100, Medicare requires a co-payment. To help cover the co-payment, many seniors also have a Medicare supplement insurance policy. In general, once Medicare stops paying for care, the supplement payment also will end.

### Medicaid

Medicaid (referred to as Medi-Cal in California) generally pays for certain health services and nursing home care for those with low incomes and limited resources. Medicaid may also pay for some long term care services at home and in the community.

Medicaid sets limitations on the amount of assets you may own and the amount of income you may receive each month before you are eligible for benefits. Who is eligible and what services are covered vary from state to state. There also are restrictions on transferring assets to others in order to qualify for Medicaid.

# The True Impact of Long Term Care

Long term care is becoming an increasingly important issue in this country. The aging Baby Boomer population in the U.S. is approaching 80 million. At least 70 percent of people over age 65 will need long term care services and support at some point in their lifetime.<sup>2</sup>

Long term care is the type of care you may need if you have a prolonged physical illness, disability or severe cognitive impairment. These limitations may prevent you from living independently and from carrying out basic self-care tasks.

As highlighted within this survey, long term care can have a major financial impact. While anticipating this aspect is extremely important, it is only one of many components to address when planning. The impacts can extend far beyond dollars, affecting careers and personal lives.

Genworth's *Beyond Dollars* study outlines major insights that impact caregivers in long term care situations.

## Less Focus on Careers

**1/3** of caregivers surveyed provided 30 or more hours of care per week; the average weekly time requirement: 21 hours

**65%** of caregivers missed work, ranging from working less and being late or absent to losing jobs or having to change career paths altogether

## Less Time for Life

**46%** said that providing care impacted their personal health and well-being

**34%** indicated a negative impact on their family in general

## Less Money for Extras

**58%** reported cutting into discretionary spending, including eating out, buying new clothes or a new car, because of their care-related responsibility

**27%** spent less than before on events such as birthdays and anniversaries

IMPACT

IMPACT

IMPACT

The good news is that planning ahead can really reduce these impacts on lives and finances.

<sup>2</sup>2014 *Medicare & You*, National Medicare Handbook, Centers for Medicare and Medicaid Services, September 2013

# Start The Planning Process

Sometimes taking the first step is the hardest part. That is why Genworth offers multiple resources to help start the long term care planning process.

## Let's Talk: Conversations that Make a Difference

It can be difficult to talk to parents, spouses or partners, children and other loved ones about what the future may hold in terms of long term care needs. Talking now and taking charge can prepare you and your loved ones for life's twists and turns.

The information and tools offered on [genworth.com/lets-talk](http://genworth.com/lets-talk) will help you prepare for productive conversations with your loved ones. The site provides ways to break the ice, helpful tips and insights, resources, education and motivation to more easily plan for your family's potential long term care needs.

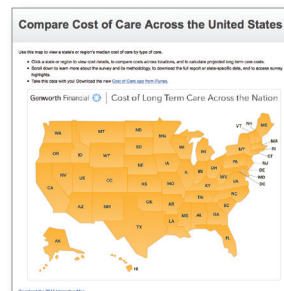

## Beyond Dollars Study: A Way Forward

This report articulates the findings of a research study on the circle of care and the impact on the many people within it. More than 800 consumers with personal involvement in a long term care event lasting more than 30 days were surveyed. The report, which can be found at [genworth.com/costofcare](http://genworth.com/costofcare), includes quantitative data, along with compelling stories, thoughts and perspectives of survey participants, provided in their own words.

## Genworth 2014 Cost of Care Online

Our website – [genworth.com/costofcare](http://genworth.com/costofcare) – provides much more information about the cost of care. Visit the site to download the full survey report and overviews of long term care services and financing options. The interactive map features daily, monthly and annual rates for 440 regions throughout the U.S., offers the ability to compare up to three locations, and calculates projected costs for up to 30 years out.

## Data Table End Notes

<sup>1</sup> Median Annual Rates\* are calculated based on the following:

Homemaker Services - hourly rate multiplied by 44 hours per week, multiplied by 52 weeks

Home Health Aide Services - hourly rate multiplied by 44 hours per week, multiplied by 52 weeks

Adult Day Health Care - daily rate multiplied by 5 days per week, multiplied by 52 weeks

Assisted Living Facility - monthly rate multiplied by 12 months

Nursing Home - daily rate multiplied by 365 days

<sup>2</sup> Represents the compound annual growth rate based on Genworth Cost of Care Survey data from 2009 to 2014.

Data is rounded to the nearest percentage point.

\* Hourly, daily and monthly rates are rounded to the nearest whole dollar.

Genworth Cost of Care regions are based on Metropolitan Statistical Areas (MSAs) as defined by the Office of Management and Budget (OMB) ([census.gov](http://census.gov)). In February 2013, the OMB refined its MSA delineations, thereby impacting some of our region definitions. All 2014 Cost of Care data reflects survey results based on the new delineations.

# Methodology

## CareScout®

CareScout has conducted the Genworth Cost of Care Survey annually since 2004. Located in Waltham, Massachusetts, CareScout has specialized in helping families find long term care providers nationwide since 1997.

This year, CareScout – a Genworth company – contacted more than 43,300 providers\* to complete over 14,800 surveys of nursing homes, assisted living facilities, adult day health facilities and home care providers. Potential respondents were selected randomly from the CareScout nationwide database of providers in each category of long term care services. Survey respondents representing all 50 states, the District of Columbia and Puerto Rico were contacted by phone during January and February of 2014. Survey respondents were informed that survey data provided would be included in the Genworth 2014 Cost of Care Survey results. Survey questions varied based on the type of care provider.

Considered the most comprehensive survey of its kind, the Genworth Cost of Care Survey publishes costs in 440 regions based on the 381 U.S. Metropolitan Statistical Areas (MSAs). MSA definitions are established by the U.S. Office of Management and Budget and include approximately 85 percent of the U.S. population. The survey also includes some counties outside of the MSA regions. To create accurate historical trends for this expanded scope, CareScout recast the base data from the 2009 survey into the current region structure. As a result, CareScout is able to report a five-year compound annual growth rate for each region.

## Home Care (HC)

Surveyors completed more than 3,600 interviews with licensed home health care providers representing approximately 19 percent of home care agencies.\*\* The agencies surveyed provided home health care and homemaker services where a skilled nurse does not need to be present. A home health aide will typically help with bathing, dressing, transferring and toileting, but not with catheters or injections. Most of these agencies also provide homemaker services that typically include assistance with shopping, finances, cooking, errands and transportation. Homemaker services may also be employed for the purpose of providing companionship.

Annual rates are based on 44 hours of care per week, multiplied by 52 weeks. Where a rate range was provided, the midpoint was used. The survey excludes holiday rates.

## Adult Day Health Care (ADH)

Across 440 regions, surveyors polled more than 25 percent of adult day health care facilities, resulting in nearly 1,200 completed surveys.

ADH is designed to meet the needs of adults who are functionally and/or severely cognitively impaired. Programs are intended to be structured and comprehensive, and to take place in a protective setting that promotes well-being through a variety of health, social and other support services. These services are intended to help enable individuals live more independently in the community. These services may also be used to provide relief for family caregivers.

\*Various provider categories used in the survey may not be the same as the definitions used in a long term care insurance policy.

\*\*Not all states require a license for home care. Data includes certain states where unlicensed providers are included because the state does not offer or does not have HH license requirements.

ADH facility rates are structured in a variety of ways: some charge by the hour, some by the half-day and others for the full day, regardless of utilization. All rates used in Genworth's survey were extrapolated to a daily (6-8 hours) rate.

ADH facility rates may be subsidized by the government or the community. A government subsidy is based on the individual's ability to pay. However, a community subsidy is available to individuals regardless of their income level. This survey captures the full private pay rates or, where applicable, the community subsidy rates. This survey does not capture the government subsidy rates.

Annual rates are based on the daily rate multiplied by five days per week, and then multiplied by 52 weeks.

### Assisted Living Facilities (ALF)

Across 440 regions, surveyors polled more than 15 percent of licensed assisted living facilities, resulting in more than 6,200 completed surveys.

Unlike nursing homes, there is no uniform regulatory standard for assisted living facilities. As a consequence, states have instituted licensing standards that vary from state to state. The assisted living facilities polled were licensed according to the licensure requirements of the state in which the assisted living facility was located.

Currently, there are more than 70 different names or designations for facilities licensed as some form of an assisted care facility. Generally, fewer than 40 percent of these care facilities use the term "assisted living facility" as a part of their formal name or licensure designation. For example, some facilities

may be identified as "residential care facilities." Because of variations in licensing requirements by state, both small group homes and large multi-service facilities qualified as assisted living facilities for the purposes of this study.

Surveyors collected the monthly private pay rates as they ranged from basic care to more substantial care for a one-bedroom unit in an assisted living facility. Where a rate range was provided, the average of the high and low was used in the annual cost calculation. Surveyors also determined whether the facility charges a non-refundable community or entrance fee. This study shows that approximately 43% of survey participants (nearly 2,600) said they charge a one-time, non-refundable fee.

Annual rates are based on the monthly fee multiplied by 12 months.

### Nursing Homes (NH)

Across all regions of the study, surveyors polled nearly 25 percent of certified and licensed nursing homes, resulting in nearly 3,800 completed surveys.

Surveyors collected the daily rates for private rooms (single occupancy) and semi-private rooms (double occupancy) in Medicare-certified nursing facilities. Medicare-certified nursing homes represent more than 90 percent of all nursing homes in the U.S. The daily room charge usually includes services beyond rent, such as three meals a day, laundry, sundries, basic nurse supervision and generic non-prescription pharmaceuticals.

Annual rates are based on the daily fee multiplied by 365.

## About CareScout®

Headquartered in Waltham, Massachusetts, CareScout helps Americans across the United States find quality care providers for their long term care needs. As an objective source for this provider information, CareScout, a Genworth company, developed the nation's first quality-of-care ratings system for certified nursing homes and home care providers. Large employers, risk underwriters and families rely on CareScout's proprietary ratings system, the CareScout network, and its database of about 100,000 providers including nursing homes, assisted living facilities and home care agencies to help find and arrange the most appropriate care for loved ones. For more information, visit [carescout.com](http://carescout.com).

## About Genworth Financial

Genworth Financial, Inc. (NYSE: GNW) is a leading Fortune 500 insurance holding company dedicated to helping people secure their financial lives, families and futures. Genworth has leadership positions in offerings that assist consumers in protecting themselves, investing for the future and planning for retirement – including life insurance, long term care insurance, financial protection coverages, and mortgage insurance that helps consumers achieve home ownership while assisting lenders in managing their risk and capital.

Genworth operates through three divisions: U.S. Life Insurance, which includes life insurance, long term care insurance and fixed annuities; Global Mortgage Insurance, containing U.S. Mortgage Insurance and International Mortgage Insurance segments; and the Corporate and Other division, which includes the International Protection and Runoff segments. Products and services are offered through financial intermediaries, independent distributors and sales specialists. Genworth Financial, Inc., headquartered in Richmond, Virginia, traces its roots back to 1871 and became a public company in 2004. For more information, visit [genworth.com](http://genworth.com).

From time to time, Genworth Financial, Inc. releases important information via postings on its corporate website. Accordingly, investors and other interested parties are encouraged to enroll to receive automatic email alerts and Really Simple Syndication (RSS) feeds regarding new postings. Enrollment information is found under the "Investors" section of [genworth.com](http://genworth.com).
